

Conflict Free Mineral Policy

Onanon, Inc. is committed to sourcing components and materials from companies that share our values around human rights, ethics and environmental responsibility. We expect that our supply chain abides by these same requirements, which prohibits human rights abuses and unethical practices. We also require all suppliers to comply with applicable legal standards and requirements.

On August 22, 2012, the U.S. Securities and Exchange Commission (“SEC”) issued the final conflict minerals rule under Section 1502 the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Conflict Minerals Rule”). The Conflict Minerals Rule requires publicly traded companies to report annually the presence of conflict minerals (tin, tungsten, tantalum and gold, or “3TG”) originating in the Democratic Republic of the Congo or adjoining countries (“Covered Countries”).

Onanon requires that suppliers that are identified as sources that supply components with 3TG minerals to Onanon complete conflict minerals declarations using the EICC/GeSI Conflict Minerals Reporting Template.
